Three-engine reliability.

Unique in its class, this transcontinental aircraft offers excellent performance even from high-altitude airports. The spacious luxury cabin seating accommodates up to 14 passengers and easily converts to comfortable sleeping quarters for overnight itineraries.

A fully equipped galley in the Falcon 900EX provides the cabin attendant the ability to serve any menu desired and fulfill any passenger request. This aircraft also provides a full compliment of communications and entertainment systems that allow passengers to either work or relax during their flight. AirShow® 400, SATCOM and both large and individual DVD monitors are available for use. Additionally, with its state-of-the-art Enhanced Avionics system, the Falcon 900EX offers passengers the ultimate in safety, reliability and capability.
