Beechcraft King Air B350

<i>Speed:</i>	280 knots
<i>Range:</i>	1,200 nm
<i>Passengers:</i>	9
<i>Cabin Height:</i>	4.9'
<i>Cabin Width:</i>	4.6'
<i>Baggage Volume:</i>	55 cu. ft.

The King Air B350 is the latest version of the most successful turbo-prop airplane in business aviation. King Air's exclusive "vertical oval" design provides as much head and shoulder room as the B100 with maximum comfort for enjoying the CD-stereo and DVD-video entertainment systems. The B350's cabin seats up to nine passengers and boasts many amenities including convenient refreshment storage, a private aft lavatory and an accessible baggage area.

- Aft lavatory
- In-flight telephone
- EFIS
