<b>Passengers:</b>	8
<b>Cabin Height:</b>	4.3'
<b>Cabin Width:</b>	4.9'
<b>Baggage Volume:</b>	30 cu. ft.

---

#### Speed, efficiency, reliability and luxury.

The popular Bombardier Learjet 31A is the performance leader, setting the standard for all other aircraft in its class. It can operate with full seats and maximum fuel capacity from runways shorter than other aircraft in its class and has the ability to climb to 43,000 feet in 20 minutes. That means freedom to fly over most turbulence. The quiet, leather-appointed cabin seats eight and features a refreshment center, fold-out tables, lavatory and a luggage area that is accessible in-flight.
